Mr. Stephen Larson
Executive Director
C.P.U.C.
505 Van Ness, Room 5222
San Francisco, CA 94102

Dear Mr. Larson:

I am writing to invite you to participate in an **International Study Travel Project to South America** to examine mechanisms to reduce greenhouse gas emissions, electrical transmission and distributed generation issues, as well as development of alternative fuel technologies. The delegation of state legislators, regulators and administration officials along with business, labor and environmental representatives from the CFEE board will depart from California (SFO or LAX, TBD) on **Thursday, November 9th and return on Wednesday, November 22, 2006**. The project will include visits to **Brazil, Argentina and Chile**.

The objective of the project is to meet with legislative and administrative counterparts in the host countries to learn how carbon reduction schemes are quantified and sustained in order to bring about verifiable, permanent emission reductions. We will also conduct site visits that demonstrate the various technologies and policies designed to reduce greenhouse gas emissions from power generators and transportation.

As a 501(c)(3) nonprofit, CFEE is able to host your airfare, hotel and ground transportation in full compliance with California Fair Political Practices Commission rules. You will be required to pay for your incidental expenses and some meals.

Although November seems a long time away, we will need your initial expression of interest this week. A registration form is included with this letter. Celeste Cremen will contact you to discuss your commitment, as well as verify the validity of your passport for the month of November 2006 (must be valid up to May 2007 to travel to South America).

Sincerely,

Patrick F. Mason
President
