

INTRODUCING...

Your California Health Plan

Comprehensive medical care for all Californians

You're Covered!

Because you're a Californian

It's nonprofit, can't be canceled against your will, and is focused on your health:

- You pick your doctor
- ...In the location of your choice
- ...With full family coverage
- ...And out-of-state care when you travel

No hassle, no soaring costs

The California Health Plan...

Offers health care for all Californians,
At less cost and with better coverage.

This is possible because...

The billions of dollars wasted by insurance companies and HMOs on middlemen, CEO pay, corporate profits, overhead and advertising goes instead to caring for you, for all of us.

With the buying power of 36 million Californians behind it, the California Health Plan is more affordable and more reliable.

What does that mean to you?

Affordable & Reliable...

Here are a few things you won't *ever* have to experience again...

- Employer health care cuts
- Being stuck in a bad job just to keep your benefits
- Inability to choose your own doctor or hospital
- Constantly increasing premiums and co-pays
- Inexplicable delays and denials of benefits
- Unaffordable - or worse, worthless - insurance policies
- Cancellation of your policy just because you got sick

You and Your Doctor

- If you and your family have physicians and hospitals you like and trust, that's great. You keep them.
- If you'd like to change doctors, go ahead.
- If you haven't had a doctor because you lacked insurance, you can pick your own now.
- The California Health Plan will pay your doctors and hospital directly. It's the end of voice-mail hell and insurance company red tape.

Here's What's Included ...

- Doctor visits, including appropriate preventive screening
- Pregnancy coverage and pediatrician visits
- Hospitalization
- Emergency and urgent-care treatment
- Comprehensive care for diabetes and other chronic conditions

No Huge Deductible to Pay

No Unaffordable Out of Pocket Costs

You may have guessed
by now...

That we don't have this yet. But we have a plan
to get it. We need your help...
