November 12, 2012

Coverage for your specialty medicine will change beginning 01/01/2013 and you have to use CuraScript in order for it to be covered. But you'll get some great extra benefits when you switch.

Our records show that you are using a specialty medicine and that you're getting it from a retail pharmacy. (You can check the list of specialty medications included with this letter to find the one you are taking). Coverage for your medicine will change beginning 01/01/2013 and in order for it to be covered you now have to use the specialty pharmacy, CuraScript. If you stay with your retail pharmacy, the medicine won't be covered and it'll cost you more money.

* If you switch to CuraScript Specialty Pharmacy and get delivery to your home, your coverage will remain the same.

When you use our preferred specialty pharmacy, CuraScript, you'll get door-to-door service with lots of other benefits and it'll be covered by your health plan as usual. CuraScript is managed by Express Scripts. Express Scripts already manages the home delivery of other medicines for our members.

But if you stay with your retail pharmacy, you will have to pay the full price of the medicine. That's because using a retail pharmacy will be considered going out-of-network beginning 01/01/2013. And your plan doesn't have coverage for that. So you'll have to pay the full price of the drug.

Here are the great things that come with CuraScript:

- One-on-one service from a Pharmacy Care Advocate
- 24/7 phone access to a registered nurse or pharmacist
- A special nursing program that members can join for certain health conditions; the program helps members stick to their drug routines and helps them avoid possible side effects
- Home delivery to the address you choose
- Phone calls that remind you when it's time for a refill
- Special packaging that keeps medicines cool, when it's necessary

It's easy to switch – by phone or fax.

- **Call: 800-870-6419**, Monday - Friday, 5 a.m. - 7 p.m., Pacific Time
Patient Care Advocates can switch over prescriptions for specialty medicines to CuraScript for you.
- **Fax: 800-824-2642**
Ask your doctor to fax your prescription(s) and a copy of your insurance card.

In addition, to help ensure the safety, quality and effectiveness of the specialty medicine you receive, your prescription will be limited to a 30 day supply*. Your co-pay/coinsurance amount will apply.

*Transplant and HIV/AIDS medicines are not limited to a 30 day supply.
Si necesita ayuda en español para entender este documento, puede solicitarla sin costo adicional, llamando al número de servicio al cliente que aparece al dorso de su tarjeta de identificación o en el folleto de inscripción.

Anthem Blue Cross is the trade name of Blue Cross of California. Independent licensee of the Blue Cross Association. ANTHEM is a registered trademark of Anthem Insurance Companies, Inc. The Blue Cross name and symbol are registered marks of the Blue Cross Association.

Express Scripts, Inc. is a separate company that manages pharmacy services and benefits for members of our health plans.

This list may change without notice, which may affect your benefit coverage.

For more information about your drug plan, you can go to anthem.com/CA or call customer service at the phone number on your ID card.

Speech and hearing impaired users (TDD/TTY) should call 800-221-6915, Monday - Friday, 8:30 a.m. - 5:00 p.m., Eastern Time.

When specialty drugs are covered under your plan's medical benefits, they will not be covered by your prescription drug benefits, if included in your plan. When specialty drugs are covered under your prescription benefits, if included in your plan, they will not be covered by your plan's medical benefits.

Some drugs may need approval (prior authorization) from your health plan before the pharmacy can give them to you. Visit anthem.com/ca (Pharmacy/Pharmacy Programs) for information on pharmacy prior authorization, forms and more.

Oncology drugs, when part of a chemotherapy regimen, do not have to come from the specialty pharmacy program. Oral Oncology drugs are excluded and need to come from our preferred specialty pharmacy provider.
