ORC STUDY #717498 CARAVAN DECEMBER 4-7, 2008
 NATIONAL HEALTH CARE SURVEY

Question M3

Half of all research and development of new health care treatments is currently funded by American taxpayers. Congress is considering increasing funding for stem cell research by tens if not hundreds of millions of dollars. There is proposed legislation that would give Americans a return on their investment in the form of lower costs for any of the new treatments or prescription drugs that are developed by taxpayer-funded research, including newly funded stem cell research. Do you favor or oppose this legislation or are you undecided? Is that (favor/oppose) STRONGLY or (favor/oppose) NOT SO STRONGLY?

ORC STUDY #717498 CARAVAN DECEMBER 4-7, 2008
 NATIONAL HEALTH CARE SURVEY

Question M5

There is proposed federal legislation that would make it mandatory for every American to show proof that they have health insurance coverage or face tax penalties. If an individual does not receive full coverage through an employer, or if a person does not qualify for government assistance, then they would be required to pay for a policy. Do you favor or oppose this legislation or are you undecided? Is that (favor/oppose) STRONGLY or (favor/oppose) NOT SO STRONGLY?
